Dynamic Engagement Model™

Dynamic Engagement Model™

Do I matter?

Does my manager care about me?

Do I belong to something bigger than myself?

Do I feel part of the team?

Stay Connected

- Make yourself available/accessible
- Focus on the people/ culture
- Customize and Co-Create!

Team's Needs

- You get burned out
- Overemphasis on people -> business suffers
- Too much customization -> no consistency

- Carve out time for yourself
- Focus on business needs/challenges
- Create consistency in norms/ protocol

Others' Needs

- Become too isolated
- Overemphasis on task -> People don't feel cared about
- Expectations are the same for everyone - "one size fits all"

Let's hear from you

You will have 5 minutes in a break out room

1. Briefly introduce yourselves (name & role)
2. Assign a note taker
3. Share effective strategies that have helped you stay connected with your team

What strategies have worked for you? (note taker to share 1-2 ideas)

Weekly team meetings using Microsoft meeting for an hour and a half - with a smaller team for almost about an hour

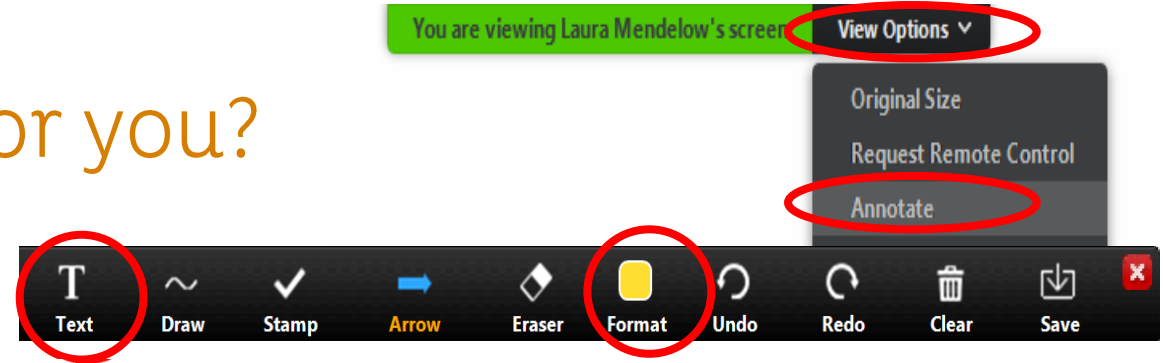

1. Virtual Coffee Break for entire Staff 2. Skype/Microsoft Teams/Zoom meetings for staff as well as training on these resources

Use video to keep routine staff meeting going

For local and overseas teams - We established a Whatsapp group - mainly for the social group - weekly meetings on a unit level and departamental level for 45 mins

Fixed Time meetings -30 min. End the meetings with an ice breaker

All-Hands and dept meetings each week, regular at same time, same day

Quick morning video meetings where everyone checks in, shares good news,

- Senior leader call lists rotating weekly
- Connecting personally
- Getting others to focus on themselves
- Virtual Happy Hours!!!

1 - virtual sessions focused on a social aspect (replacing water cooler conversation)

- so a zoom HH, coffee break, or lunch

2 - chat channels focused on things that are not necessarily work

3 - moving things that were previously in person (bulletin board work) online

4) evaluating the best solutions (like Teams) that can foster chat and protect data

“The most important thing with
communication is to hear what is
not being said.”
